

Gallery Template

With the gallery template you can create a page that showcases images and videos. These items could be related to an event, a library, a teaching subject etc.

The screenshot shows a SharePoint gallery page titled "Videos". At the top, there are several filter buttons: "All", "Breast", "Chemotherapy", "Clinical trials", "Colorectal", "Community Forum", "Financial", "New patients", "Gynecologic", "Lung", "Lymphoid", "Symptoms", "Nutrition", "Radiation", and "Survivorship". Below the filters, there are two video items displayed in a grid. The first item is titled "Cancer-related Fatigue" and features a thumbnail of a medical syringe. The second item is titled "Lymphedema and Breast Cancer; Symptom Management and Exercise after Surgery" and features a thumbnail of a game box labeled "ONE UP!". To the right of the video items, there is a search bar with the text "test 广东话" and "test" below it.

Videos

All Breast Chemotherapy Clinical trials Colorectal Community Forum Financial
New patients Gynecologic Lung Lymphoid Symptoms Nutrition Radiation
Survivorship

Cancer-related Fatigue
Presenter: Karen Levy, Nurse; Satnam Sekhon, Dietitian, Kristin Campbell, Physiotherapist
Length: 60:00
Date: 2008

Lymphedema and Breast Cancer; Symptom Management and Exercise after Surgery
Presenter: Dr. Susan Harris, UBC School of Rehabilitation Sciences, 2006

You will need to create a Gallery list in SharePoint so that you can upload images/videos to and assign a description and a category. These list items are then displayed on your Gallery page.
